

March 27, 2020

Park and Recreation Patrons,

In consideration of the ongoing developments and guidelines regarding the Coronavirus (COVID-19), all City of Fayetteville recreation programs remain suspended until further notice. While we remain in the same position we have been in the past two weeks it is our aim to keep our participants in the know to the best of our ability. We are continuing to operate with the intention of completing Spring Programs once it is safe to do so and providing the high-quality, fulfilling experience our community has come to expect. If a point is reached where we are no longer able to provide a program, we will inform the public and make a determination regarding fees at that time.

Please continue to monitor our website and social media accounts for new information. The City of Fayetteville is closely monitoring the rapidly changing situation and maintains a web page with updates for the public at [fayetteville-ar.gov/covid19](http://fayetteville-ar.gov/covid19). Continuing to heed to advice of medical experts and practice social distancing by staying home as much as possible and maintaining a 6' separation between yourself and others at all times. Public safety is our top priority.

Sincerely,

Fayetteville Parks and Recreation
